STRATEGIC OBJECTIVE #4

(Management of Productive, Life-Sustaining Natural Resources Strengthened)

SOON, POWER IS APLENTY. A resident of barangay South Silumpak in Siasi, Sulu helps install a solar home system on the roof of his neighbor. He and other inhabitants across Mindanao who have had no access to electricity are now fortunate enough to have their villages energized by the Alliance for Mindanao Off-grid Renewable Energy (AMORE) through individual solar home systems. AMORE is a partnership of the U.S. Agency for International Development (USAID), the Mirant Philippines Foundation, the Department of Energy (DoE), the Autonomous Region in Muslim Mindanao (ARMM) and Winrock International.
